Had a tolerable ready market at \$5.25, so that pockers and drovers found it a little more easy to operate than for several days past. Efforts to vary the market fro a the figure named, were of course in some instances successful, but for prime Hogs they generally ran above rather than below it. The receipts keep up to a very even average, and the facility with which drovers have adjusted their driving to the current condition of the market has been surprising. So far receipts have been very light. Usually, at the present period in the season, the packing business is about at its zenith. Feeders apparently have an opportunity of making up in the quality and weight of their riogs, what they may how in numbers, if they do fall thorf, and also a chance to make the Hogs bring as much per head. Headache is the favorite sign by which natural makes known any deviation whatever from the natural state of the brain, and viewed in this light it must be looked on as a safeguard intended to give notice disease which might otherwise escape attention, too late to be remedied; and its indications shoun never be neglected. Headaches may be classified under two names, viz? Symtomatic and Idiopath Symptomatic Headache is exceedingly common and the precursor of a great variety of diseases, amough the precursor of a great variety of diseases, amough diseases. In its nervous form it is sympathetic of diseases. In its nervous form it is sympathetic of diseases. In its nervous form it is sympathetic of diseases. In its nervous form it is sympathetic of disease of the stomach, constituting sick headache, of worm constipation and other disorders of the bowels, well as renal and uterine affections. Diseases of theart are very frequently attended with Headache Amemia and plethora are also affections which frequently occasion headache. Idiopathic Headache also very common, being usually distinguished by the name of nervous headache, sometimes coming on sudenly in a state of apparently sound health, and protein other instances it comes on slowly, heralded by distinguished by the pression of spirits or accrebity of temper. In most a stances the pain is in the front of the head, ever or both eyes, and sometimes provoking vomiting under this class may also be named Neuralgia.

For the treatment of either class of Headache if Cephalic Pills have been found a sure and safe remed releving the most acute pains in a few minutes, and by its subtle power eradicating the diseases of which Headache is the uncering index.

Constipation or Costiveness. No one of the "many ills flesh is heir to" is so prevalent, so little understood, and so much neglected as Costiveness Often originating in carelessness, or sedentary habits; it is regarded as a slight disorder of too little consequence to excite anxiety, while in reality it is the precursor and companion of many of the most fatal and dangerous diseases, and onless early eradicated it will bring the sufferer to an untimely grave. Among the lighter evils of which costiveness is the usual attendant, are Headache, Colic, Rhoumstism, Foul Breath, Piles and others or like nature, while a long train of frightful diseases such as Malignant Fevers, Abcesses, Dysentary, Diarrhoss, Dyspepsia, Apoplexy, Epilepsy, Paralysis, Hysteria, Hypochondrasis, Melancholy and Insanity, first indicate their presence in the system by this alarming symptom. Not unfrequently the diseases named originate

torn. Not unfrequently the diseases named originate in Constipation, but take on an independent existence unless the cause is eradicated in an early stage. From all these considerations it follows that the disorde should riceive immediate attention whenever it occurs, and no person should neglect to get a box of Ce phatic Pills on the first appearance of the complaint, a their timely use will expel the insiduous approaches of itsease and destroy this dangerous foe to human life
